site footprint

ABOUT THE SITE

Ferrara Site and Technical Center is part of a multi-company complex located in the Emilia-Romagna region, in Italy. This site has a long and illustrious history in the polyolefin industry and continues to focus on this tradition of innovation thanks to the integration between its Giulio Natta Research Center, with pilot plant and laboratories, and the production area. The site comprises the polypropylene manufacturing operations as well as the catalyst production facilities. Polypropylene and advanced polyolefin resins are used in a wide variety of applications including food packaging, medical products, automotive components, and much more.

ECONOMIC IMPACT

\$110 million

Estimate includes yearly total for goods & services purchased and employee pay and benefits, excluding raw materials purchased (basis 2016)

COMMUNITY ENGAGEMENT

LyondellBasell is committed to being a responsible, good neighbor in the communities where we operate. The Ferrara Site supports the community by volunteering with various groups including:

Automotive interiors

Construction and roofing materials

Food packaging

Pharmaceuticals

Textiles

ABOUT LYONDELLBASELL

LyondellBasell (NYSE: LYB) is one of the largest plastics, chemicals and refining companies in the world. Driven by its 13,000 employees around the globe, LyondellBasell produces materials and products that are key to advancing solutions to modern challenges like enhancing food safety through lightweight and flexible packaging, protecting the purity of water supplies through stronger and more versatile pipes, and improving the safety, comfort and fuel efficiency of many of the cars and trucks on the road. LyondellBasell sells products into approximately 100 countries and is the world's largest licensor of polyolefin technologies. In 2018, LyondellBasell was named to Fortune magazine's list of the "World's Most Admired Companies." More information about LyondellBasell can be found at www.lyondellbasell.com.
