Cautionary Statement

The statements in this presentation relating to matters that are not historical facts are forward-looking statements. These forward-looking statements are based upon assumptions of management which are believed to be reasonable at the time made and are subject to significant risks and uncertainties. Actual results could differ materially based on factors including, but not limited to, the business cyclicalities of the chemical, polymers and refining industries; the availability, cost and price volatility of raw materials and utilities, particularly the cost of oil, natural gas, and associated natural gas liquids; competitive product and pricing pressures; labor conditions; our ability to attract and retain key personnel; operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, supplier disruptions, labor shortages, strikes, work stoppages or other labor difficulties, transportation interruptions, spills and releases and other environmental risks); the supply/demand balances for our and our joint ventures' products, and the related effects of industry production capacities and operating rates; our ability to achieve expected cost savings and other synergies; our ability to successfully execute projects and growth strategies; legal and environmental proceedings; tax rulings, consequences or proceedings; technological developments, and our ability to develop new products and process technologies; potential governmental regulatory actions; political unrest and terrorist acts; risks and uncertainties posed by international operations, including foreign currency fluctuations; and our ability to comply with debt covenants and service our debt. Additional factors that could cause results to differ materially from those described in the forward-looking statements can be found in the "Risk Factors" section of our Form 10-K for the year ended December 31, 2015, which can be found at www.lyondellbasell.com on the Investor Relations page and on the Securities and Exchange Commission's website at www.sec.gov.

The illustrative results or returns of growth projects are not in any way intended to be, nor should they be taken as, indicators or guarantees of performance. The assumptions on which they are based are not projections and do not necessarily represent the Company's expectations and future performance. You should not rely on illustrated results or returns or these assumptions as being indicative of our future results or returns.

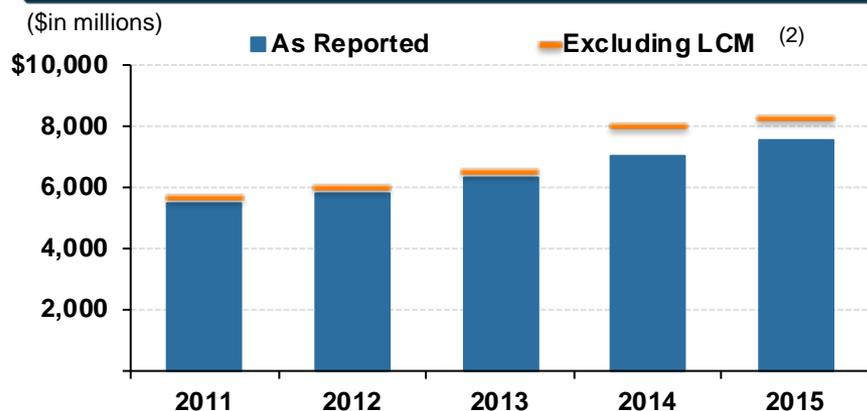

This presentation contains time sensitive information that is accurate only as of the date hereof. Information contained in this presentation is unaudited and is subject to change. We undertake no obligation to update the information presented herein except as required by law.

World-Class Scale With Leading Positions

Who We Are

- \$40 billion market capitalization ⁽¹⁾
- Global independent chemical company, incorporated under Dutch law
- Executive offices in London, Rotterdam, and Houston
- Products sold in ~100 countries, with 56 manufacturing sites across 18 countries

EBITDA

(1) As of December 31, 2015

(2) LCM stands for "lower cost or market". Further detail regarding LCM adjustments can be found in the Appendix under "Information Related to Financial Measures."

(3) Source: LYB, IHS as of December 31, 2015. Only pro rata ownership of joint venture facilities.

(4) EU includes Central and Western Europe for all products except Technology and R&D which is all of Europe

(1) Based on 2014 annual revenues. Excludes Technology segment revenues and intersegment eliminations.

LYB's Focused Approach is Yielding Results

- **Maximize value through a focus on operations**
 - Safe operations → reliable operations → maximum profit
 - The best/most leveraging investment is in your existing assets
- **Cost discipline remains a priority**
 - Most chemical markets are mature
 - Overhead and spending management must be consistent over time
- **Invest in advantaged positions, sustain others**
 - Raw material advantages
 - Technology and structure create areas of differentiation
- **Shareholders own the company**
 - Transparency
 - Shareholder friendly cash deployment policy

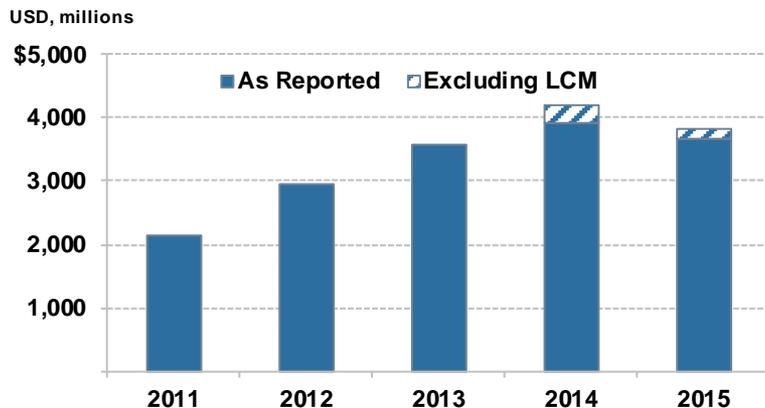

Each Business is Operated to Maximize Results

<u>Segment</u>	<u>LYB Market Position</u>	<u>Priority</u>	<u>2015 EBITDA (ex. LCM)</u>
Olefins & Polyolefins – Americas	<ul style="list-style-type: none"> ▪ NGL advantage ▪ Increasing capacity 	Invest	\$3.8 B
Olefins & Polyolefins – EAI	<ul style="list-style-type: none"> ▪ Commodities – naphtha based, with cyclical upside ▪ Advantaged feedstock ▪ Differentiated polymers 	Optimize	\$1.9 B
Intermediates & Derivatives (I&D)	<ul style="list-style-type: none"> ▪ Proprietary technologies ▪ Natural gas advantage 	Invest	\$1.7 B
Refining	<ul style="list-style-type: none"> ▪ Large, heavy crude refinery ▪ Processing Canadian crude 	Optimize	\$0.5 B
Technology	<ul style="list-style-type: none"> ▪ Strong technology position ▪ Maintain leadership 	Focus	\$0.2 B ⁽¹⁾

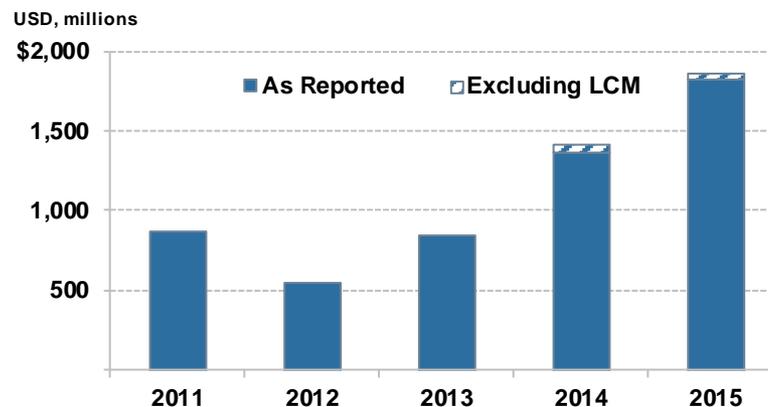

(1) The Technology Segment was not impacted by the LCM adjustment.

1Q 2016 Highlights

(\$ in millions, except per share data)	As Reported			Excluding LCM ⁽¹⁾		
	1Q15	4Q15	1Q16	1Q15	4Q15	1Q16
EBITDA	\$1,952	\$1,394	\$1,807	\$2,044	\$1,678	\$1,875
Income from Continuing Operations	\$1,167	\$797	\$1,030	\$1,225	\$982	\$1,077
Diluted Earnings (\$ / share) from Continuing Operations	\$2.42	\$1.78	\$2.37	\$2.54	\$2.20	\$2.48

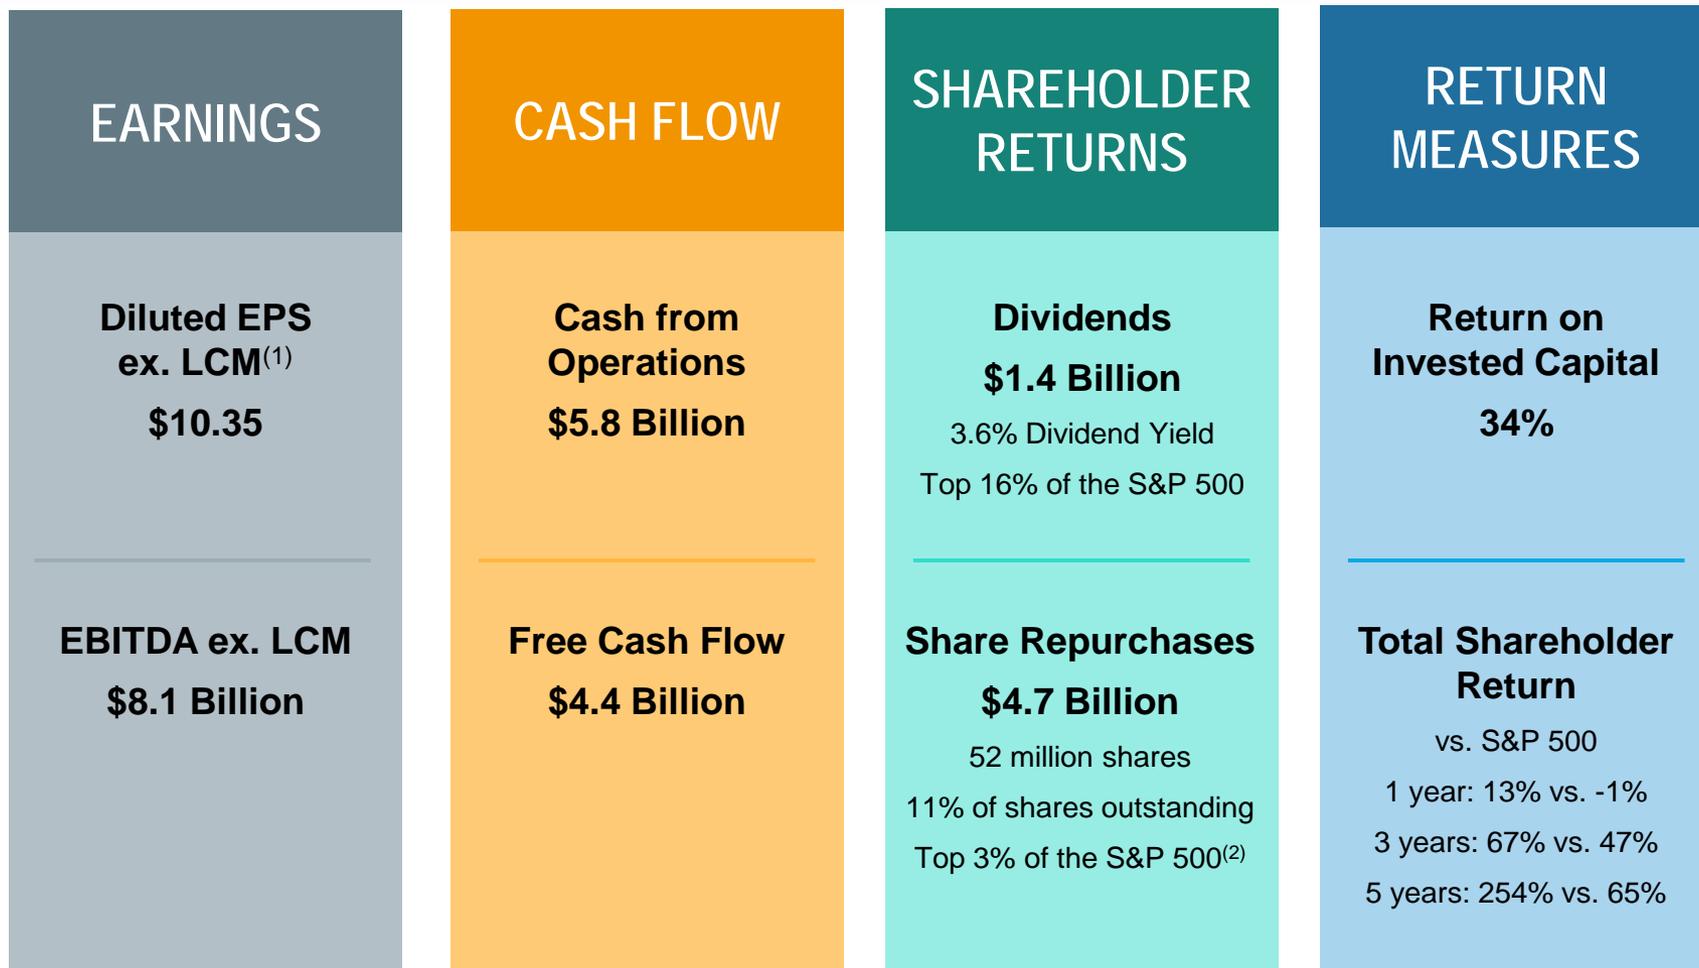

Strong EPS Performance

Highlights

- Polyolefins capturing strong O&P chain margins
- Improving seasonal markets
- Completed refinery turnaround
- Completed sale of Argentine subsidiary Petroken with gain of \$78 million; Completed second India PP compounding acquisition (Zylog) during early April
- Issued €750 million six-year euro bonds at 1.875% rate
- \$1.3 billion in 1Q16 share repurchases and dividends

(1) LCM stands for "lower of cost or market." Further detail regarding LCM adjustments can be found in the Appendix under "Information Related to Financial Measures."
 Note: All results include \$78 million after-tax gain on sale of Petroken: \$57 million gain for O&P Americas for polypropylene assets and \$21 million gain for O&P EAI for compounding assets.

(1) LCM stands for "lower of cost or market." Further detail regarding LCM adjustments can be found in the Appendix under "Information Related to Financial Measures."

(2) Share repurchases ranked as a percentage of LTM Average Enterprise Value.

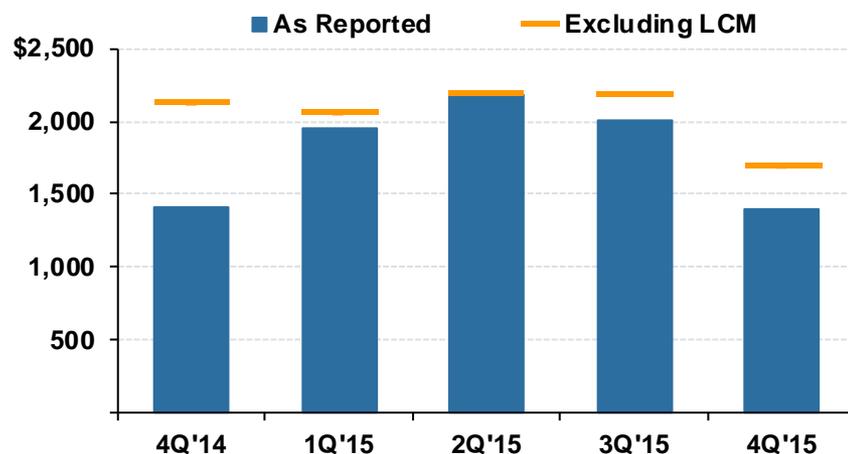

Highlights

<i>(\$ in millions, except per share data)</i>	FY 2013	FY 2014 (As Reported)	FY 2015 (As Reported)	FY 2014 (ex. LCM) ⁽¹⁾	FY 2015 (ex. LCM)
EBITDA	\$6,311	\$7,050	\$7,533	\$7,810	\$8,081
Income from Continuing Operations	\$3,860	\$4,172	\$4,479	\$4,655	\$4,830
Diluted Earnings (\$ / share) from Continuing Operations	\$6.76	\$8.00	\$9.60	\$8.92	\$10.35

Record Annual EBITDA ex LCM: \$8.1 Billion

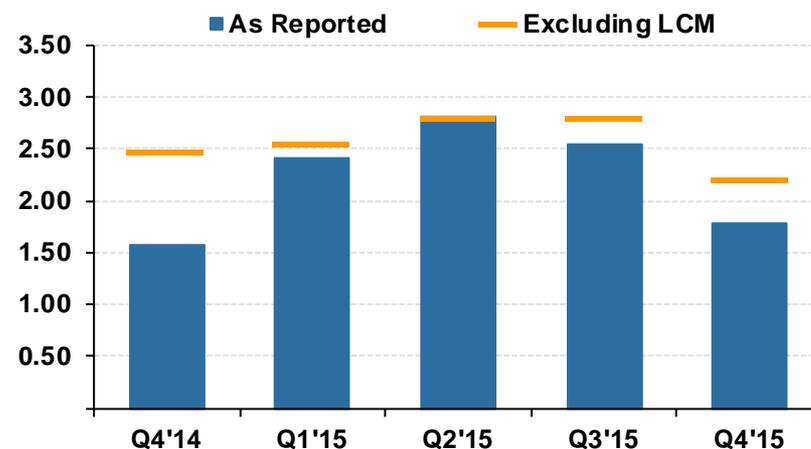

(\$ in millions)

EBITDA

2011 - 2015 Shareholder Returns of Capital and Free Cash Flow as % of Average 2015 Enterprise Value

Exceeding peers in absolute cash returned and as a percentage of enterprise value

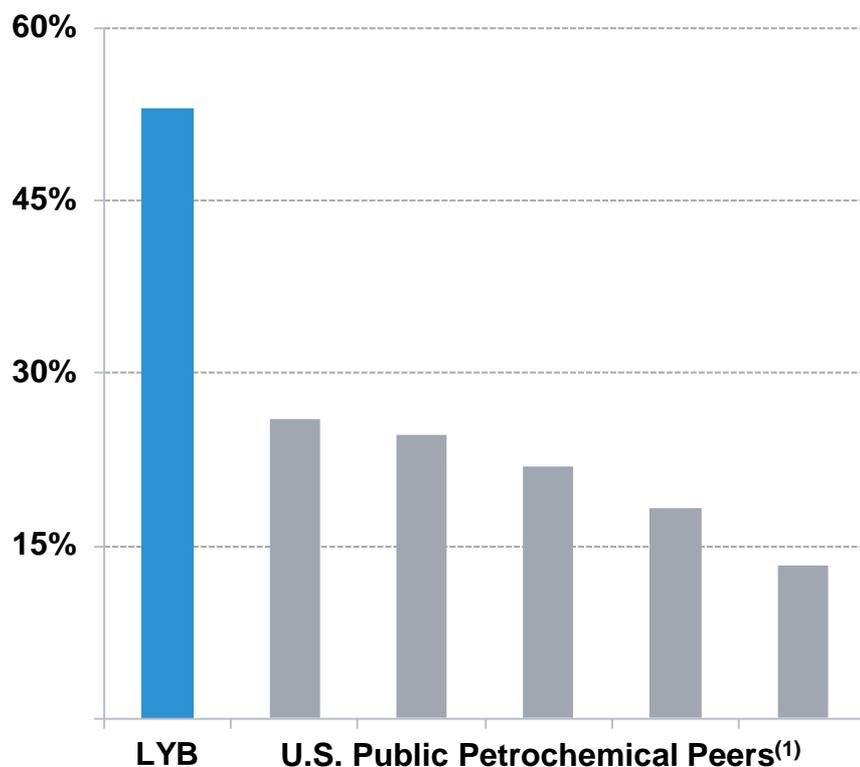

Source: SEC filings, Bloomberg, CapitalIQ

Enterprise Value for LYB is calculated based on reported line items. For peers, Enterprise Value is calculated as the average of the daily share price multiplied by the number of shares outstanding during 2015 as per CapitalIQ.

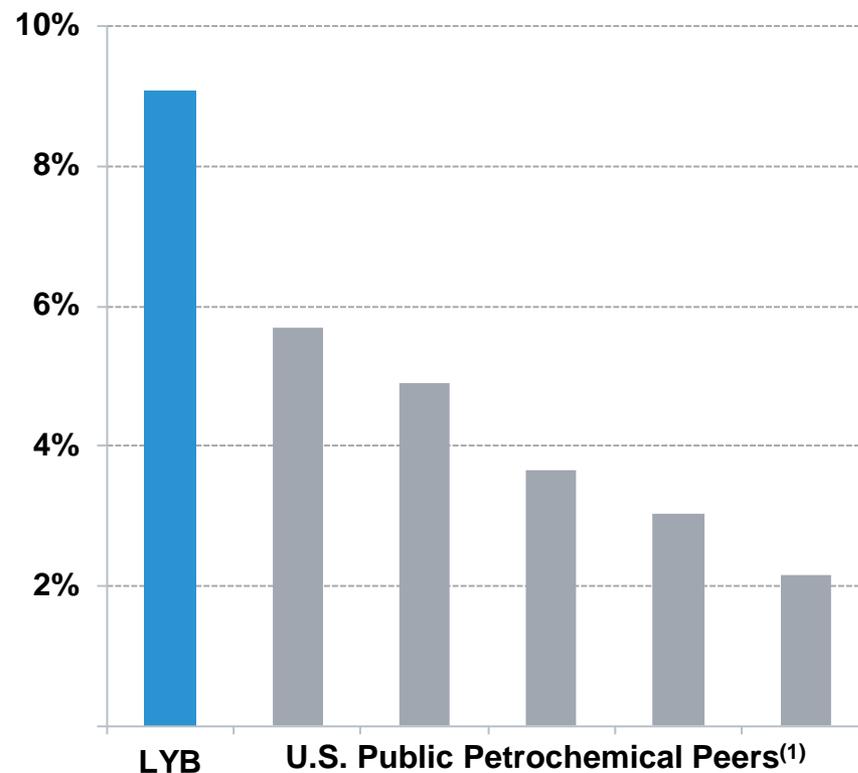

For definitions and peer group definitions, please see the Glossary in this Appendix.

LYB Delivers More Cash to the Bottom Line

**'11 – '15 Free Cash Flow⁽¹⁾
as % of EBITDA ex LCM⁽²⁾**

**'11 – '15 Avg. Annual Free Cash Flow⁽¹⁾
as % of Dec. 31, 2015 Market Cap**

LYB free cash flow generation significantly exceeds comparable U.S. public peer group

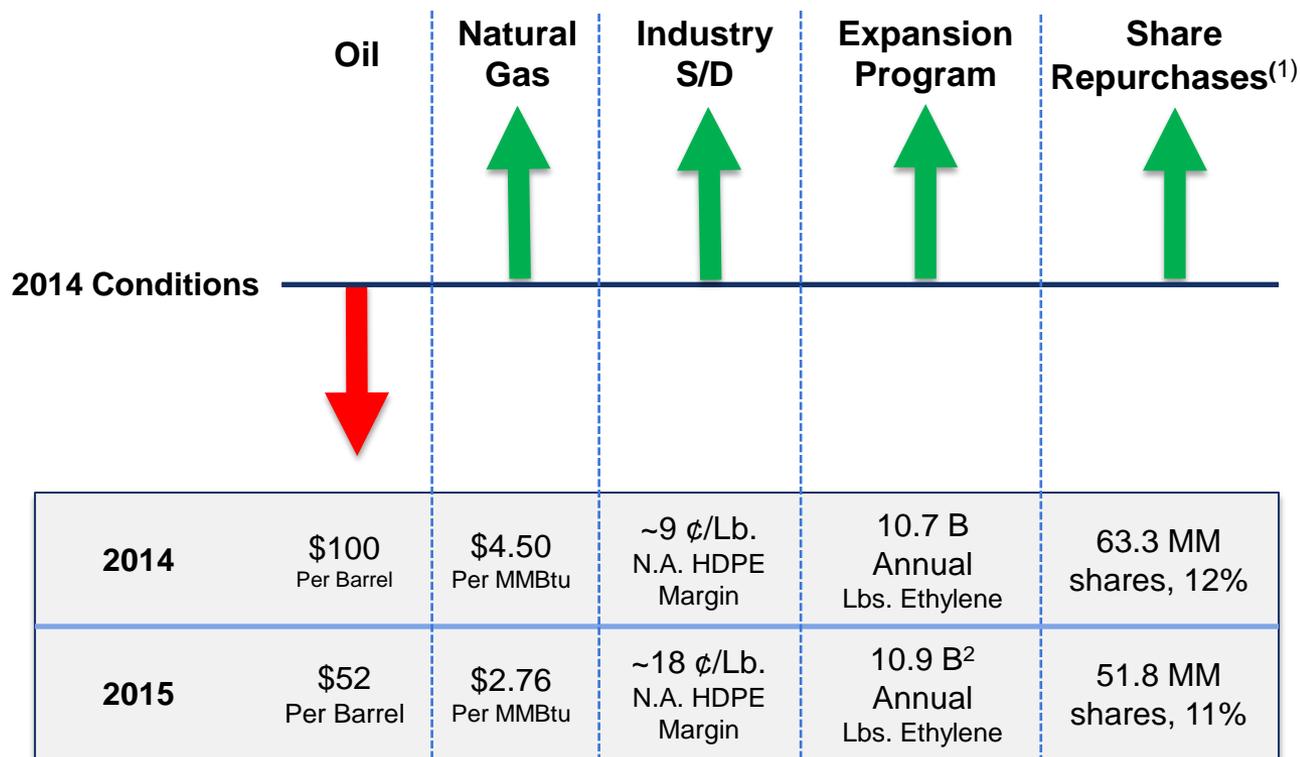

Source: Company filings, Capital IQ

Notes: LYB calculations are based on as reported line items. Peer calculations are based on Capital IQ calculated line items.

(1) For definitions and peer group definitions, please see the Glossary in this Appendix.

(2) For purposes of peer comparison, LYB EBITDA ex LCM is as reported. Peer EBITDA = Revenue – COGS – SG&A – R&D + D&A + equity income as calculated by Capital IQ.

Strong 2015 EPS Despite Oil Decline

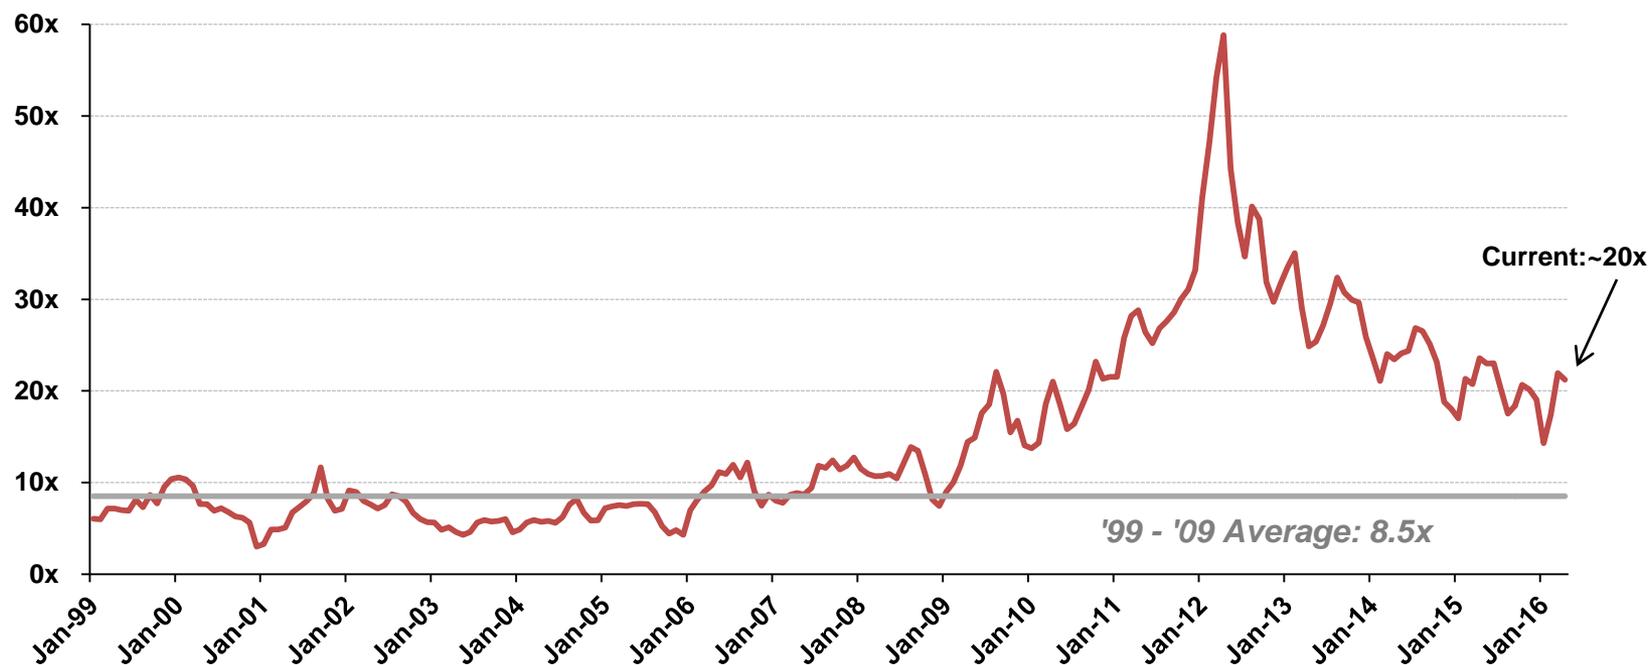

EPS is supported by low U.S. natural gas prices, tightened market conditions, our expansion program, and share repurchases

Source: LYB, IHS as of year end 2015.

(1) Share repurchase percentage is calculated off of the outstanding shares as of Dec. 31, 2013 and 2014, respectively.

(2) Capacity for 2015 includes the full annual capacity addition of 250 MM pounds completed at our Channelview site during 2015.

Historic Oil/Gas Ratio

- Current oil to gas ratio remains healthy and well above the pre-shale average
- Historic equivalent value of crude oil to gas implies a price of ~ \$15-20 per barrel

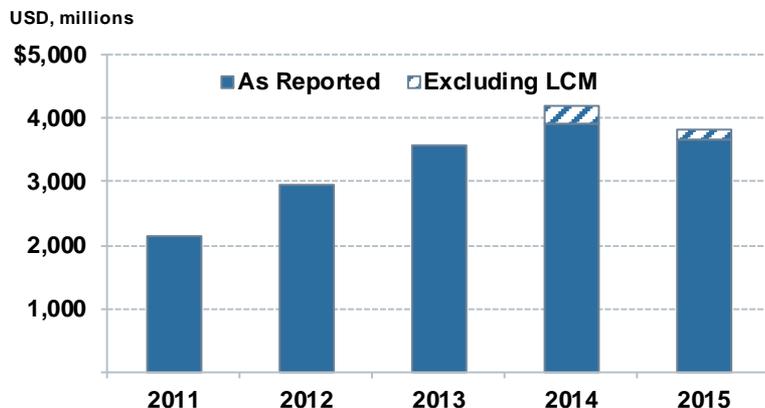

Source: NYMEX, ICE.

O&P Profitability Shift to Polymers: LYB Benefitting from Strong Ethylene Integration

Internal Ethylene Balances for LYB ⁽¹⁾

Globally balanced with length in US ethylene

Ethylene and Polyethylene Margins ⁽²⁾

Margin shifting from monomer to polymer

Benefitting from integration of monomer, polymer and other downstream derivatives

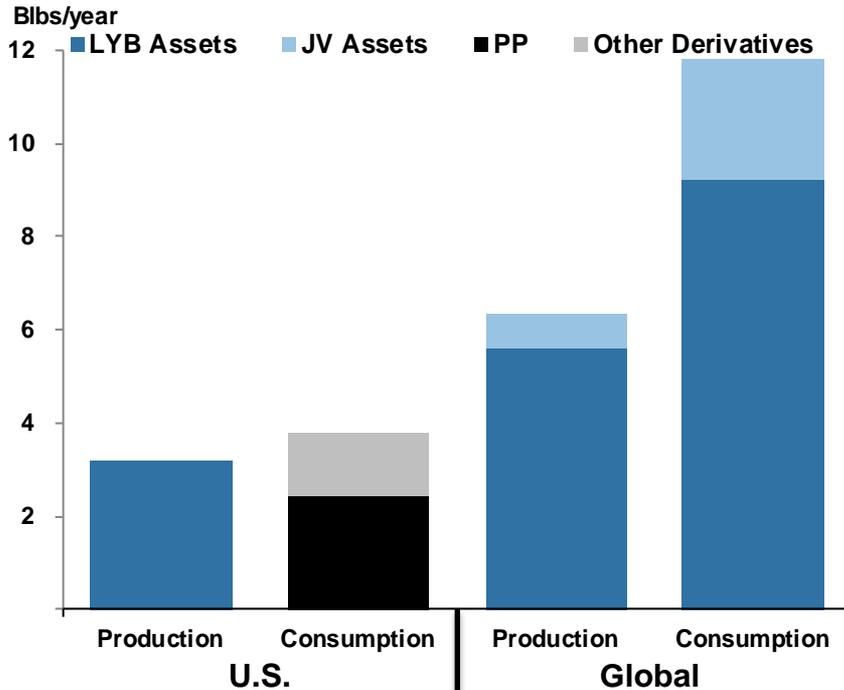

(1) Typical 2016 LYB production and consumption. Global capacities includes LYB share of JV capacities. Consumption includes PE, metathesis, ethylene oxide and derivatives, styrene, VAM, PP and ethanol.

(2) Source: Industry data from IHS.

O&P Profitability Shift to Polymers: LYB Benefitting from Strong Polypropylene Position

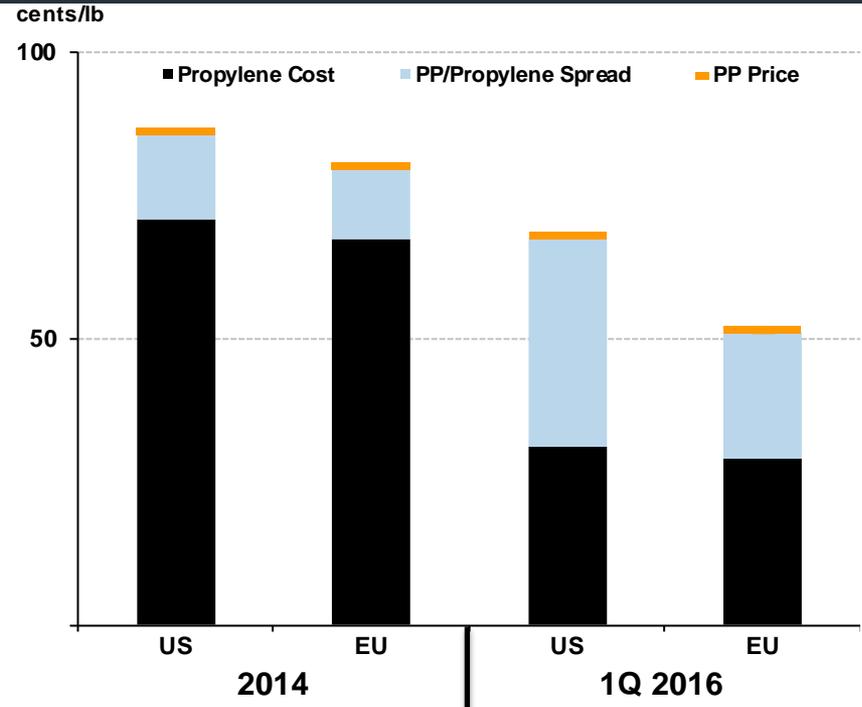

Internal Propylene Balances for LYB (1)

Short propylene in a well-supplied global market

Polypropylene Spreads and Prices (2)

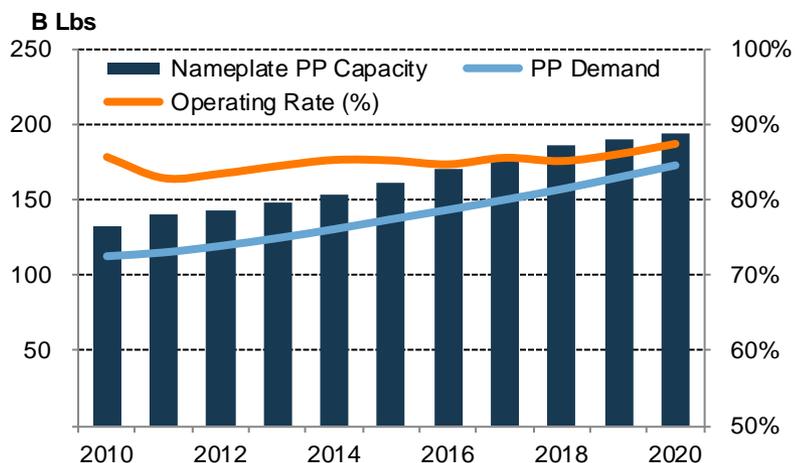

Growing polypropylene margin

Benefitting from strong polymer margins with a leading global position in polypropylene

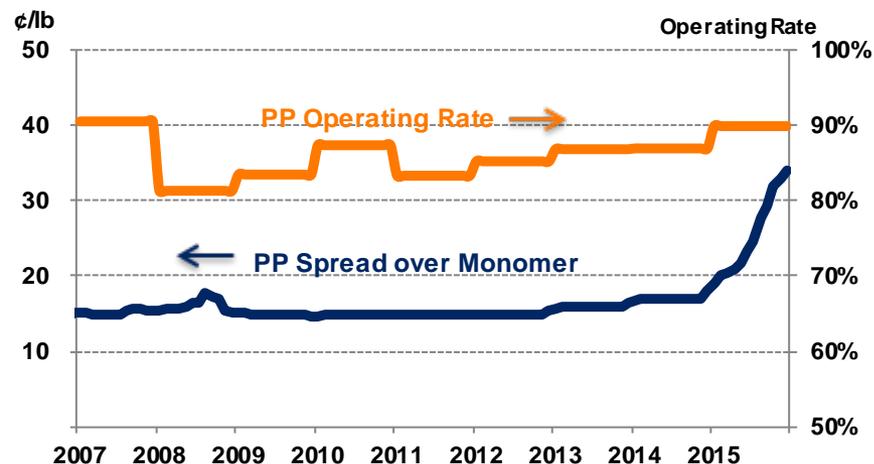

(1) Typical 2014 to 2016 LYB production and consumption. Global capacities includes LYB share of JV capacities. Production includes crackers, refinery and metathesis. Consumption includes polyolefins and propylene oxide and derivatives.

(2) Source: Industry data from IHS.

Polypropylene Supply / Demand

NA PP: Tight Market Driving Margin

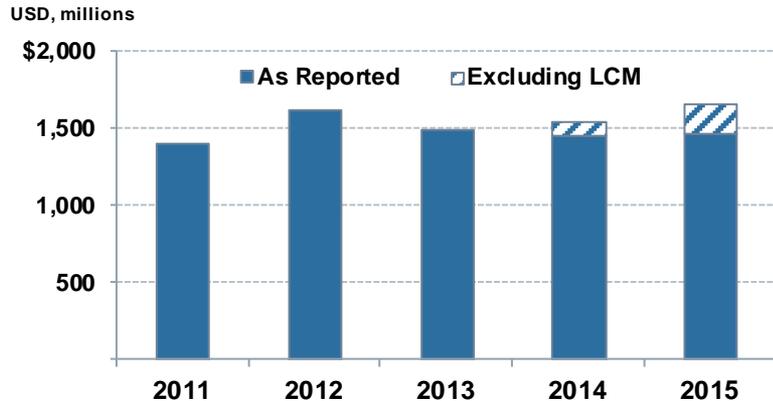

Polypropylene Advantages

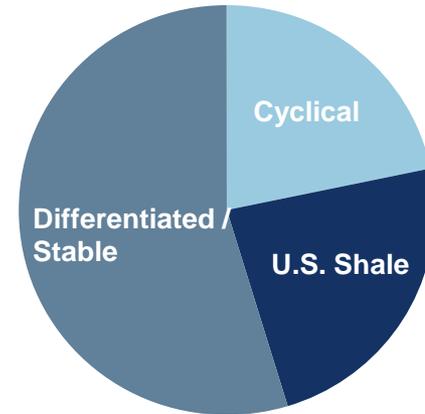

- Low density, lightweight
- Impact resistance
- Recyclability
- Chemical resistance
- Wide temperature performance
- Plasticizer-free
- Replacement for higher-cost resins and PVC
- Abundant, low-priced propylene will enable continued PP growth.

Source: IHS. Spreads and margins depicted as 3-month moving averages. Spread is contract homopolymer less contract polymer-grade monomer price. Homopolymer prices prior to 2015 are adjusted to account for the January 2015 IHS non-market reduction. Margin is IHS discounted contract pre-tax non-integrated margin.

	Completed Projects			~\$1,050	\$595 – 740	\$500 – 660
	Corpus Christi Ethylene Expansion	800	Q3 2016	In Progress	\$190 – 250	\$150 – 220
	New PO/TBA Plant	1,000 PO 29 MBPD Oxyfuels	2020	In Progress	\$500 – 550	\$450 – 500
	PE Capacity	1000	2019 / 2020	In Progress	\$25 – 75	\$150 - 200
	Remaining Projects				\$715 – 875	\$750 – 920
	Total				\$1,310 – 1,615	\$1,250 – 1,580

Source: LYB, Chemical Data and IHS.

(1) Potential EBITDA assumes 100% utilization and is based on third party consultant industry margins for 2015, and 2011-2015 average as of January 13, 2016.

(2) The EU Butadiene expansion benefits from a fixed margin and thus the potential EBITDA benefit has not changed.

This presentation makes reference to certain “non-GAAP” financial measures as defined in Regulation G of the U.S. Securities Exchange Act of 1934, as amended. The non-GAAP measures we have presented include income from continuing operations excluding LCM, diluted earnings per share excluding LCM, EBITDA and EBITDA excluding LCM. LCM stands for “lower of cost or market,” which is an accounting rule consistent with GAAP related to the valuation of inventory. Our inventories are stated at the lower of cost or market. Cost is determined using the last-in, first-out (“LIFO”) inventory valuation methodology, which means that the most recently incurred costs are charged to cost of sales and inventories are valued at the earliest acquisition costs. Market is determined based on an assessment of the current estimated replacement cost and selling price of the inventory. In periods where the market price of our inventory declines substantially, cost values of inventory may be higher than the market value, which results in us writing down the value of inventory to market value in accordance with the LCM rule, consistent with GAAP. This adjustment is related to our use of LIFO accounting and the recent decline in pricing for many of our raw material and finished goods inventories. We report our financial results in accordance with U.S. generally accepted accounting principles, but believe that certain non-GAAP financial measures, such as EBITDA and earnings and EBITDA excluding LCM, provide useful supplemental information to investors regarding the underlying business trends and performance of the company's ongoing operations and are useful for period-over-period comparisons of such operations. Non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, the financial measures prepared in accordance with GAAP.

EBITDA, as presented herein, may not be comparable to a similarly titled measure reported by other companies due to differences in the way the measure is calculated. We calculate EBITDA as income from continuing operations plus interest expense (net), provision for (benefit from) income taxes, and depreciation & amortization. EBITDA should not be considered an alternative to profit or operating profit for any period as an indicator of our performance, or as an alternative to operating cash flows as a measure of our liquidity. We have also presented financial information herein exclusive of adjustments for LCM.

While we also believe that free cash flow is a measure commonly used by investors. Free cash flow, as presented herein, may not be comparable to similarly titled measures reported by other companies due to differences in the way the measures are calculated. For purposes of this presentation, free cash flow means net cash provided by operating activities minus capital expenditures.

Reconciliations for our non-GAAP measures can be found on the following slides.

- **COGS:** Cost of Goods Sold
- **D&A:** Depreciation and Amortization
- **EBITDA (as used for peers):** Earnings before Interest, Taxes and Depreciation and Amortization = Revenue - COGS - SG&A - R&D + D&A + Equity Income
- **EV:** Enterprise Value calculated using the average daily closing share price for the last 12 months ended December 31, 2015 multiplied by the common shares outstanding as of December 31, 2015.
- **Free Cash Flow** = Cash from Operations – Capital Expenditures
- **R&D:** Research and Development
- **SG&A:** Sales, General and Administrative

Peer Groups

- **U.S. Public Petrochemical Peers:** Celanese, Dow, Eastman, Huntsman and Westlake
- **Peer Companies:** Celanese, Dow, DuPont, Eastman, Huntsman and Westlake
- **Large Peers:** Dow, DuPont
- **Other Peers:** Celanese, Eastman, Huntsman, Westlake
