Second Quarter 2019 Earnings

August 2, 2019
Cautionary Statement

The statements in this presentation relating to matters that are not historical facts are forward-looking statements. These forward-looking statements are based upon assumptions of management which are believed to be reasonable at the time made and are subject to significant risks and uncertainties. Actual results could differ materially based on factors including, but not limited to, the business cyclicality of the chemical, polymers and refining industries; the availability, cost and price volatility of raw materials and utilities, particularly the cost of crude oil, natural gas, and associated natural gas liquids; competitive product and pricing pressures; labor conditions; our ability to attract and retain key personnel; operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, supplier disruptions, labor shortages, strikes, work stoppages or other labor difficulties, transportation interruptions, spills and releases and other environmental risks); the supply/demand balances for our and our joint ventures’ products, and the related effects of industry production capacities and operating rates; our ability to achieve expected cost savings and other synergies; our ability to successfully execute projects and growth strategies; any proposed business combination, the expected timetable for completing any proposed transactions and the receipt of any required governmental approvals, future financial and operating results, benefits and synergies of any proposed transactions, future opportunities for the combined company; legal and environmental proceedings; tax rulings, consequences or proceedings; technological developments, and our ability to develop new products and process technologies; potential governmental regulatory actions; political unrest and terrorist acts; risks and uncertainties posed by international operations, including foreign currency fluctuations; and our ability to comply with debt covenants and service our debt. Additional factors that could cause results to differ materially from those described in the forward-looking statements can be found in the “Risk Factors” section of our Form 10-K for the year ended December 31, 2018, which can be found at www.LyondellBasell.com on the Investor Relations page and on the Securities and Exchange Commission’s website at www.sec.gov.

The illustrative results or returns of growth projects are not in any way intended to be, nor should they be taken as, indicators or guarantees of performance. The assumptions on which they are based are not projections and do not necessarily represent the Company’s expectations and future performance. You should not rely on illustrated results or returns or these assumptions as being indicative of our future results or returns.

This presentation contains time sensitive information that is accurate only as of the date hereof. Information contained in this presentation is unaudited and is subject to change. We undertake no obligation to update the information presented herein except as required by law.

Information Related to Financial Measures

This presentation makes reference to certain “non-GAAP” financial measures as defined in Regulation G of the U.S. Securities Exchange Act of 1934, as amended.

EBITDA, as presented herein, may not be comparable to a similarly titled measure reported by other companies due to differences in the way the measure is calculated. We calculate EBITDA as income from continuing operations plus interest expense (net), provision for (benefit from) income taxes, and depreciation & amortization. EBITDA should not be considered an alternative to profit or operating profit for any period as an indicator of our performance, or as an alternative to operating cash flows as a measure of our liquidity.

While we also believe that free operating cash flow (FOCF) is a measure of profitability commonly used by investors to evaluate performance, free operating cash flow, as presented herein, may not be comparable to similarly titled measures reported by other companies due to differences in the way the measures are calculated. For purposes of this presentation, free operating cash flow means net cash provided by operating activities minus sustaining (maintenance and HSE) capital expenditures.

Additionally, total liquidity is a measure that provide an indicator of value to investors. For purposes of this presentation, total liquidity includes cash and cash equivalents, restricted cash and restricted cash equivalents, short term investments, repurchase agreements, and availability under our Three-Year Team Loan due 2022, Senior Revolving Credit Facility and our receivables facilities.

Reconciliations for our non-GAAP measures can be found on our website at www.LyondellBasell.com/investorrelations.
Second Quarter 2019 Highlights

**Delivering strong results**
- Diluted EPS: $2.70
- EBITDA: $1.6 B, 11% increase over 1Q19

**Growing through investment**
- Announced new PP project at Thailand JV
- Commissioning *Hyperzone* PE – 2H19
- Building world’s largest PO/TBA plant

**Advancing value-driven opportunities**
- Launched tender offer

Knapsack, Germany
Strong Seasonal Improvements Driven by Global Consumer Demand

**Strong:**
- Oxyfuels & Related Products margins

**Improved:**
- Polyethylene chain margins

**Challenging:**
- Heavy sour crude oil pricing

**Growing:**
- Technology licensing
Delivering strong results:
Cash from operating activities $1.2 B

Growing through investment:
Progressing construction on Hyperzone PE and PO/TBA

Returning value to shareholders:
11th quarterly dividend increase

(1) Beginning and ending cash balances include cash and cash equivalents, restricted cash, and liquid investments.
(2) CAPEX includes growth and sustaining (maintenance and HSE) capital.
**Strong Cash Generation With Ample Liquidity**

### Cash From Operating Activities

USD, millions

- **2015**: 6,000
- **2016**: 5,000
- **2017**: 4,000
- **2018**: 3,000
- **2Q19 LTM**: 2,000

#### 2Q19 LTM

- **Cash from operating activities**: $4.6 B
- **Sustaining capex**: $1.0 B
- **Free operating cash flow**: $3.6 B

### Total Liquidity

USD, millions

- **2015**: 8,000
- **2016**: 6,000
- **2017**: 4,000
- **2018**: 2,000
- **2Q19**: 10,000

#### Total Liquidity

- **2019 increase used for 3Q19 tender offer**

---

(1) Free Operating Cash Flow = cash from operating activities – sustaining (maintenance and HSE) capital expenditures.

(2) Total liquidity includes cash and cash equivalents, restricted cash and restricted cash equivalents, short term investments, repurchase agreements, and availability under our Three-Year Team Loan due 2022, Senior Revolving Credit Facility and our receivables facilities as of December 31 for each whole year and June 30, 2019 for 2Q19. $3.1 B of our available liquidity was used to fund the tender offer which closed on July 12, 2019.
Our Capital Deployment Strategy Remains Consistent

2Q19 Performance vs. 1Q19\(^{(2)}\)

Compounding & Solutions
- Volume decline for most products
- Margin decline for PP Compounds

Advanced Polymers

(1) 3Q18 EBITDA includes transaction and integration costs of $49 MM. 4Q18 through 2Q19 EBITDA includes integration costs of $55 MM.
(2) Arrow direction reflects our underlying business metrics.
(3) Annualized synergy run rate as of December 31, 2018 and June 30, 2019.
Product Spotlight: Anti-blocking Masterbatches

Improved performance through:

- Streamlined fabrication process
- Reduced friction and sticking of film rolls
- Increased processing efficiencies

Applications:
- Food packaging
- Labels
- Lidding film
- Agricultural film
- Tape
Refining
Margins Challenged by Heavy Sour Crude Oil Prices

Houston Refinery
- Crude throughput: 261 MBPD
- Maya 2-1-1 up ~$5 to ~$19
- Margin declined due to high prices for purchases of USGC heavy sour crude oil

(1) Arrow direction reflects our underlying business metrics.
# Second Quarter Summary and Outlook

## Summary

- **Diluted earnings per share:** $2.70
- **Quarterly EBITDA improvement:** 11%
- **Strong** cash from operating activities: $4.6 billion for LTM 2Q19

## Outlook

- **Resilient** consumer-driven demand
- **Continued** low-cost NGLs
- **Highest margin** for NWE Oxyfuels since 2015

## Advancing Growth

- Announced new PP project at Thailand JV
- Commissioning *Hyperzone* PE – 2H19
