Fourth-Quarter 2014 Earnings

Bob Patel, Chief Executive Officer
Karyn Ovelmen, Chief Financial Officer
Sergey Vasnetsov, SVP – Strategic Planning and Transactions
Doug Pike, VP – Investor Relations
The statements in this presentation relating to matters that are not historical facts are forward-looking statements. These forward-looking statements are based upon assumptions of management which are believed to be reasonable at the time made and are subject to significant risks and uncertainties. Actual results could differ materially based on factors including, but not limited to, the business cyclicality of the chemical, polymers and refining industries; the availability, cost and price volatility of raw materials and utilities, particularly the cost of oil, natural gas, and associated natural gas liquids; competitive product and pricing pressures; labor conditions; our ability to attract and retain key personnel; operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, supplier disruptions, labor shortages, strikes, work stoppages or other labor difficulties, transportation interruptions, spills and releases and other environmental risks); the supply/demand balances for our and our joint ventures’ products, and the related effects of industry production capacities and operating rates; our ability to achieve expected cost savings and other synergies; our ability to successfully execute projects and growth strategies; legal and environmental proceedings; tax rulings and changes in laws, regulations or treaties, consequences or proceedings; technological developments, and our ability to develop new products and process technologies; potential governmental regulatory actions; political unrest and terrorist acts; risks and uncertainties posed by international operations, including foreign currency fluctuations; and our ability to comply with debt covenants and service our debt. Additional factors that could cause results to differ materially from those described in the forward-looking statements can be found in the “Risk Factors” section of our Form 10-K for the year ended December 31, 2013, which can be found at www.lyondellbasell.com on the Investor Relations page and on the Securities and Exchange Commission’s website at www.sec.gov.

The illustrative results or returns of growth projects are not in any way intended to be, nor should they be taken as, indicators or guarantees of performance. The assumptions on which they are based are not projections and do not necessarily represent the Company’s expectations and future performance. You should not rely on illustrated results or returns or these assumptions as being indicative of our future results or returns.

This presentation contains time sensitive information that is accurate only as of the date hereof. Information contained in this presentation is unaudited and is subject to change. We undertake no obligation to update the information presented herein except as required by law.
This presentation makes reference to certain “non-GAAP” financial measures as defined in Regulation G of the U.S. Securities Exchange Act of 1934, as amended. The non-GAAP measures we have presented include income from continuing operations excluding LCM, diluted earnings per share excluding LCM, EBITDA and EBITDA excluding LCM. LCM stands for “lower of cost or market,” which is an accounting rule consistent with GAAP related to the valuation of inventory. Our inventories are stated at the lower of cost or market. Cost is determined using last-in, first-out (“LIFO”) inventory valuation methodology, which means that the most recently incurred costs are charged to cost of sales and inventories are valued at the earliest acquisition costs. Market is determined based on an assessment of the current estimated replacement cost and selling price of the inventory. In periods where the market price of our inventory declines substantially, cost values of inventory may be higher than the market value, which results in us writing down the value of inventory to market value in accordance the LCM rule, consistent with GAAP. We report our financial results in accordance with U.S. generally accepted accounting principles, but believe that certain non-GAAP financial measures, such as EBITDA and earnings and EBITDA excluding LCM, provide useful supplemental information to investors regarding the underlying business trends and performance of the company's ongoing operations and are useful for period-over-period comparisons of such operations. Non-GAAP financial measures should be considered as a supplement to, and not as a substitute for, or superior to, the financial measures prepared in accordance with GAAP.

EBITDA, as presented herein, may not be comparable to a similarly titled measure reported by other companies due to differences in the way the measure is calculated. We calculate EBITDA as income from continuing operations plus interest expense (net), provision for (benefit from) income taxes, and depreciation & amortization. EBITDA should not be considered an alternative to profit or operating profit for any period as an indicator of our performance, or as alternative to operating cash flows as a measure of our liquidity. We have also presented financial information herein exclusive of adjustments for LCM.

While we also believe that free cash flow (FCF) and book capital are measures commonly used by investors, free cash flow and book capital, as presented herein, may not be comparable to similarly titled measures reported by other companies due to differences in the way the measures are calculated. For purposes of this presentation, free cash flow means net cash provided by operating activities minus capital expenditures and book capital means total debt plus stockholders’ equity plus minority interests.

Reconciliations for our non-GAAP measures can be found on our website at www.lyb.com/investorrelations.

2014 Accomplishments

Financial Accomplishments

- Record earnings and cash flow
- Generated $6.0 billion cash from operations
- Repurchased more than 63 million shares for $5.8 billion and paid $1.4 billion in dividends
- Increased quarterly dividend from $0.60 per share to $0.70 per share
- Issued $1 billion 30 year bond at 4.875% coupon
- Initiated commercial paper program

Operating Accomplishments

- Key Operating Rates:
  - U.S. Ethylene: 95% excluding La Porte turnaround
  - EU Ethylene: 95%
  - PO: 90%
  - Refinery: 97%
- 53% of European ethylene produced from advantaged feed
- Canadian crude sourcing was 10 - 15% of processed crude
- Fixed costs managed flat since 2009
- Completed 200 million pound per year PE expansion and 800 million pound per year ethylene expansion
- First full year of Channelview methanol plant operations
- Developing new propylene oxide and ethylene projects

Record financial results • Continued to return cash to shareholders • Advanced growth projects

1) Light Louisiana Sweet (LLS) is the referenced light crude. Data represents quarterly average; 2) The direction of the arrows reflects our underlying business metrics.
Fourth Quarter Summary

- Record quarter excluding LCM charge
- Continued to return cash to shareholders:
  - Share repurchases and dividends totaled $1.8 billion during the quarter
  - ~17.2 million shares were repurchased during the quarter, or 3.4% \(^{(1)}\)

Near-Term Outlook

- Volatility of crude oil and product pricing makes quantification difficult
- Crude oil price decline has continued into early Q1
- U.S. NGL cracking remains globally advantaged; U.S. ethylene chain margins remain good but not at record 2014 levels
- European olefin and polyolefin prices have continued to adjust to crude oil pricing with a time lag; margins are holding
- I&D impacted by scheduled Channelview methanol plant maintenance
- Refining receiving Canadian crude through Enbridge pipeline system

\(^{(1)}\) As % of shares outstanding as of 09/30/14
LyondellBasell is planning an Investor Day to be held on the morning of **April 29, 2015**, in New York City. At this half-day session, you will have an opportunity to interact with members of our leadership team and get an update on current results, near-term outlook and long-term plans for profitable growth.

Invitations and additional information to follow.
