ABOUT THE SITE

Equistar operates and maintains 1400 miles of liquid and gas pipelines along the Texas Gulf Coast and in Louisiana. The pipelines transport feedstocks and various chemical products to LyondellBasell sites and other petrochemical customers from Corpus Christi to Lake Charles. Additionally, the pipeline group operates and maintains two underground hydrocarbon storage facilities at Mont Belvieu and Markham with a combined storage capacity of 15 million barrels. Administrative offices are located in its Clear Lake City facility which also houses a state-of-the-art control room that remotely monitors and operates all pipeline and storage assets.

ECONOMIC IMPACT

\$90 million

Estimate includes yearly total for goods & services purchased and employee pay and benefits, excluding raw materials purchased (basis 2016)

COMMUNITY ENGAGEMENT
