

## Engineered Composites Styrene-Free Product Portfolio

LyondellBasell's enhanced compounding portfolio includes styrene-free materials that are helping customers address important but demanding regulations around the world.

### These styrene-free materials deliver:

- Drop in solution for traditional SMC and BMC applications
- Low out gassing and low odor
- Could satisfy California's Proposal 65 Regulation
- Reduced volatile organic compound (VOC) emissions
- Assists in LEEDS qualification

### These alternative materials are offered in:

- Sheet Molding Compounds
- Bulk Molding Compounds

*Applications like electrical enclosures can enjoy the benefits of traditional SMC without the use of Styrene*

Additional characteristics of these styrene-free composites include premium surface appearance for a high-end look and feel along with outstanding mechanical and thermal properties for some of the most demanding applications.

### Markets that can benefit from LyondellBasell's styrene-free composites include:

Cookware

Automotive

Building and Construction

# ABOUT US

**LyondellBasell (NYSE: LYB)** is one of the largest plastics, chemicals and refining companies in the world. Driven by its employees around the globe, LyondellBasell produces materials and products that are key to advancing solutions to modern challenges like enhancing food safety through lightweight and flexible packaging, protecting the purity of water supplies through stronger and more versatile pipes, improving the safety, comfort and fuel efficiency of many of the cars and trucks on the road, and ensuring the safe and effective functionality in electronics and appliances. LyondellBasell sells products into more than 100 countries and is the world's largest producer of polymer compounds and the largest licensor of polyolefin technologies. In 2019, LyondellBasell was named to Fortune magazine's list of the "World's Most Admired Companies."
