

# Health, Safety, Environmental and Security Policy

LyondellBasell is one of the world's largest polymers, petrochemicals and fuels companies. We are committed to the principles and requirements of Responsible Care®. We conduct our business in a manner that protects the environment and provides for the safety and health of employees, contractors, customers and the public.

Bhavesh V. (Bob) Patel  
Chief Executive Officer

Dale Friedrichs  
Vice President Health, Safety,  
Environment and Security

We will:

- Conduct our business with a goal of zero injuries and incidents
- Provide a safe, healthy and secure work environment for employees and contractors
- Maintain a risk-based management system that is designed to ensure compliance with applicable legal and other requirements and promote continual performance improvement
- Provide stewardship of our processes and products, practice pollution prevention and optimize resource use across all stages of the product life cycle
- Communicate openly with all stakeholders on relevant health, safety and environmental issues
