Process

If you qualify for financial assistance from the fund, or know of someone who does, please contact your general/site manager, Human Resources, Corporate Communications or a vice president. They will work to gather a list of employees who suffered significant or catastrophic losses from the storm. The list then will be sent to the LyondellBasell Disaster Relief Fund Board of Directors for evaluation of compliance with the criteria.

Definitions

For purposes of the above, “house or dwelling” means the employee’s/family’s **primary residence, whether owned, rented, leased or** otherwise occupied as the primary residence of the eligible employee.

“Damage/destruction” shall have the plain, ordinary meaning of those terms provided that the same shall be as a result of a natural disaster.

“Natural disaster” shall have the plain, ordinary meaning of that term to include so-called Acts of God or other natural phenomena not of a man-made nature, included but not limited to storms, floods, hurricanes, tornadoes, earthquakes, fires caused by lightning and similar naturally occurring phenomena, high winds, and similar events naturally occurring in nature.

“Significant” shall mean damage of a level that reasonably can be expected to give rise to major financial hardship without taking into account insurance and other relief or coverage that may be available to the employee/family. For this purpose, damage may be considered “significant” if the cost of repair is below 50% of the value of the dwelling as reflected on the property tax roles immediately preceding the natural disaster.

“Substantial” shall mean damage of a level that reasonably can be expected to give rise to major financial hardship without taking into account insurance and other relief or coverage that may be available to the employee/family that greatly exceeds any “significant” damage. For this purpose, damage may be considered “substantial” if the cost of repair would exceed 50% of the value of such house or dwelling as reflected on the property tax roles immediately preceding the natural disaster.

“Total” shall have its plain, ordinary meaning and may be construed to mean damage/destruction of a level whose cost of repair reasonably can be expected to exceed 80% of the value of the house/dwelling as such value is reflected on the property tax roles immediately prior to such natural disaster.
